

KL08NSB / KL04NSB

The KL08NSB wiring centre forms the heart of an Underfloor Heating controls system. It allows easy and quick connection of thermostats and actuators. It has integrated pump and boiler control module and overload protection. KL08NSB wiring centre is adapted to work with NC and NO type actuators (normally closed and normally open). Up to 8 thermostats can be connected to the KL08NSB, while KL04NSB extension allows to connect additional 4 thermostats (12 in total).

KL04NSB

If 8 zones are insufficient, the KL04NSB can be used to extend the KL08NSB to control up to 12 zones. Requires its own 230V power supply.

FEATURES

- 8 zones with 4 actuators per zone
- Push-in cable connections with strain relief
- Volt free pump and boiler switching
- LED status indication
- Separate in-port for night setback signal
- Works with NO and NC actuators
- External clock contact
- 5 year warranty

Power Supply:	230V
Switching current (Max):	5A
Output:	230V
Size (mm):	353 x 85 x 65mm

Power Supply:	230 V
Switching current (Max):	5 A
Output	230 V
Size (mm):	L-163 mm x H-85 mm x P-65 mm
